

We bring sense to vision

## Nationwide Deployment Goes Live At TNT Post

TNT Post Parcel Service now enjoying the benefits of Prime Vision's OCR, Video-Coding for parcel automation at regional hubs.

### Delft, The Netherlands, April 20th, 2007

Prime Vision, a leading supplier of mail and parcel automation solutions, is pleased to announce that it's nationwide deployment of Parcel Vision solutions at TNT Post Parcel Service is now delivered, commissioned and live; on time and on budget.

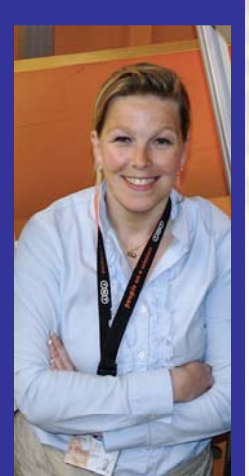

"This OCR investment will allow us to increase productivity per site to between 17,500 - 18,000 parcels per hour," TNT's Gabby van der Arend explains. "I think our goals are quite conservative. Yet despite this we are still anticipating full system payback in just three years."

At Dordrecht for example, Prime Vision's automated OCR reading of parcel labels has replaced 24 manual infeed key stations, removing a huge bottleneck in the system. Exceptions are handled centrally in a video-coding suite. Gabby van der Arend continues, "This is just the first-phase for us. OCR is a project for continual development, its potential is huge."

**Want to know more?** Prime Vision will publish a case study and virtual site-visit DVD shortly. Contact us to be added to the mailing list.

Prime Vision is a leading supplier of mail and parcel automation solutions. Prime Vision's parcel automation identification solutions suite, Parcel Vision, incorporates our unique OCR recognition technologies for handwritten and machine generated text and is fast becoming the de-facto high-performance standard in the global express-parcel market.

Renowned in the industry for the implementation of a turnkey Parcel Vision OCR system for Post Denmark in a record 12-weeks from contract award; Prime Vision continues to set the standard with Parcel Vision for clients and partners around the world.
