

We bring sense to vision

Prime Vision delivers Parcel Vision solution for DHL's advanced sortation centre in Dublin

Delft, The Netherlands, September, 2007

Prime Vision, a leading supplier of mail and parcel automation solutions, is pleased to announce that it has completed delivery of its Parcel Vision solution for DHL in Dublin, Ireland.

Prime Vision's solutions were integrated by SICK of Reute, Germany and St. Albans, United Kingdom.

Prime Vision's project manager, Pim Struik, comments "this project further confirms the trend by express parcel companies to adopt the latest camera-based parcel reading systems, such as SICK's ICR890 camera. Camera based systems capture high-resolution images that facilitate many value-added improvements in overall automation rates, such as OCR and video coding, in addition to a myriad range of customer service applications.

Prime Vision is a leading supplier of mail and parcel automation solutions. Prime Vision's parcel automation identification solutions suite, Parcel Vision, incorporates our unique OCR recognition technologies for handwritten and machine generated text and is fast becoming the de-facto high-performance standard in the global express-parcel market.
