

We bring sense to vision

Expansion at Sandd; Parcel Vision is the heart of their automation investment

New sorting centre operational

Delft, The Netherlands, September, 2007

Prime Vision, a leading supplier of mail and parcel automation solutions, is pleased to announce that it has supplied its range of Parcel Vision integrated solutions for Sandd's new sorting centre in Apeldoorn, The Netherlands.

Sandd offer a mail delivery service to 100% of addresses in The Netherlands. The official opening of the new 10,000 SqM sorting centre was 16th June 2007 and includes the latest sorter technology and camera-based reading systems.

Prime Vision's Project Manager, Rob Pieterse, comments on the Parcel Vision system; "Our solution comprises several modules including OCR and Video Coding that together aid the routing of mail items on the automatic sorter. The OCR automatically reads either the unique Sandd route code or the address and postcode"

Prime Vision is a leading supplier of mail and parcel automation solutions. Prime Vision's parcel automation identification solutions suite, Parcel Vision, incorporates our unique OCR recognition technologies for handwritten and machine generated text and is fast becoming the de-facto high-performance standard in the global express-parcel market.
